

Epson USA PowerLite L250F

EPSON USA POWERLITE L250F

A brief introduction to the PowerLite L250F: The Epson USA laser LCD projector offers 4500 Ansi lumens, a contrast of 2500000:1 and a WXGA 1366 x 768 resolution. The manufacturer specifies a laser life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. Including an integrated media player that allows files to be played directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. 682 cm picture width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 455 cm here. Furthermore, the projector can play 1080P without any problems and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection. The projector was launched in 2020 and is no longer sold by the manufacturer.
