

Estelle One

EAN/UPC:B0F2GDYXBF

Brief Introduction

Beta 2.5

A brief introduction to the One: The Estelle LED LCD projector offers 1,000 ANSI lumens and an HDTV resolution of 1920 x 1080. Thanks to its LEDs, the projector has a lamp life of up to 30,000 hours, which equates to over 20.5 years if used for four hours a day. The built-in ambient light sensor detects the ambient light in the room and automatically optimises the image. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. An image width of up to 321 cm is possible, as the projector has 1,000 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 214 cm wide. Thanks to the built-in 4000mAh battery (3-hour runtime), no external power supply is required, allowing the projector to be set up quickly and flexibly. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. Another useful feature is that the projector can be connected to external wireless speakers via Bluetooth. The projector also handles 1080p and 4K (compressed) video signals with ease.
