

Everest S67U

EVEREST S67U

The stationary S67U LCD projector from Everest has 7000 Ansi lumens, a contrast of 2000:1 and a WUXGA 1920 x 1200 resolution. With the lens shift function, the projector can be positioned very freely. An image width of up to 850 cm is possible as the projector has 7000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 567 cm. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. The model is also Full HD 1080P compatible and can therefore project Blu-rays even onto the ceiling using 360° 1/2 projection. This model is no longer offered by Everest.
