

FEARWIKY F-P2

FEARWIKY F-P2

The portable F-P2 LED LCD projector from FEARWIKY has 200 ANSI lumens and an HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30,000 hours, which, at 4 hours of viewing per day, would be over 20.5 years. The projector also offers an integrated media player that can be used to play files directly. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. The projector can illuminate up to 144 cm of image width well thanks to the 200 ANSI lumens. However, in a well-lit room, the image width should ideally be less than 96 cm. The model recognizes DLNA, Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.

Brief Introduction

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

200

89 Lux (bei 200 cm Screen)
