

FEARWIKY P6

FEARWIKY P6

A brief introduction to the FEARWIKY P6. The portable game LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast of 10000:1. The service life is 50,000 hours thanks to the LEDs, which is the equivalent of over 34.2 years at 4 hours a day. The projector can be set up in a variety of positions thanks to the horizontal and vertical keystone correction. The brightness of 200 ANSI lumens makes a picture width of 144 cm possible. In room light, the picture should be a maximum of 96 cm wide. The projector has Airplay and Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. The model is also compatible with Full HD 1080P and 4K (compressed). At 30 decibels, the projector is very quiet compared to others.

Brief Introduction Beta 2.5
