

Fujitsu LPF 3200

FUJITSU LPF 3200

A brief introduction to the Fujitsu LPF 3200. The LCD projector has an SVGA 800 x 600 resolution and a contrast of 100:1. An image width of up to 178 cm is possible. However, the picture should be smaller in room light. We recommend max. 119 cm. The projector is no longer sold by the manufacturer. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
