

Futuzen W1 Ultra 2026

FUTUZEN W1 ULTRA 2026

The W1 Ultra 2026 LED LCD projector from Futuzen has 1,500 ANSI -lumen and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the service life is 30,000 hours ? which equates to over 20.5 years if used for four hours a day. Built-in horizontal and vertical keystone correction offers flexibility when setting up the projector. An image width of up to 321 cm is possible. However, in well-lit rooms, the image should be set to a smaller size. We recommend a maximum of 214 cm. Thanks to Google TV, the projector can be conveniently controlled via voice commands. The model recognises Chromecast, AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another feature worth mentioning is that the projector?s Bluetooth function allows it to be connected to external wireless speakers. Furthermore, the projector can play 1080p and 4K (compressed) content without any issues.
