

FYRA HY300

FYRA HY300

The HY300 LED LCD projector from FYRA has 200 Ansi lumens, a contrast of 10000:1 and an HDTV 1280 x 720 resolution. Due to the LEDs, the projector is specified with 30000 hours of light life, which is over 20.5 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. 200 Ansi lumens ensure that a picture width of 144 cm is also possible. However, if room light is available, the picture should be a maximum of 96 cm wide. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Playing 1080P and 4K (compressed) is also no problem for the projector. At just 25 decibels, the device is one of the quieter projectors.
