

GooDee AC571

GOODEE AC571

With the AC571, manufacturer GooDee offers an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 20000:1. The manufacturer specifies an LED lifetime of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. A built-in horizontal and vertical keystone correction feature provides freedom when setting up the projector. An image width of up to 556 cm is possible, as the projector has 3000 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 371 cm wide. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound from smartphones, tablets, and PCs running Android, Windows, or iOS to be played directly via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. The model is also compatible with Full HD 1080P and 4K (compressed).
