

GROVIEW C58

GROVIEW C58

Manufacturer GROVIEW offers the C58, a standard portable LCD LED projector with HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30,000 hours, which is over 20.5 years at four hours of use per day. The integrated media player can play files directly. Horizontal and vertical keystone correction makes image setup a breeze. The projector can easily illuminate images up to 269 cm wide with 700 ANSI lumens. However, in room light, the image width should ideally be less than 179 cm. Thanks to the integrated Android TV software, it offers direct access to a wide range of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube, as well as games and other interactive content. The projector has Airplay, Miracast Screen Mirroring support, which allows high-resolution video and surround sound to be played directly from smartphones, tablets and PCs running Android, Windows or iOS via Wi-Fi. Another extra to be mentioned is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
