

HAPPRUN C58

HAPPRUN C58

Brief introduction to the HAPPRUN C58. The standard portable LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 25000:1. It is an LED projector with a light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. Files can be played directly using the integrated media player. Horizontal and vertical keystone correction makes image setup childs play. 1500 ANSI lumens ensure that an image width of 393 cm is also possible. However, if there is room lighting, the image should be no more than 262 cm wide. The integrated Android TV software provides direct access to a wide range of streaming services such as Netflix, Disney+, Amazon Prime Video, and YouTube, as well as games and other interactive content. The projector supports Airplay and Miracast screen mirroring, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.

Brief Introduction Beta 2.5

Display Type

1 x 5" LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen
