

Hewlett Packard MC400

HEWLETT PACKARD MC400

The MC400 LED LCD has 188 ANSI lumens and an HDTV 1280 x 720 resolution. Thanks to the LEDs, the projector has a specified light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. An image width of up to 139 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 93 cm. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs with Android, Windows, or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. It is also Full HD 1080P compatible.
