

Hisense L9Q Pro

HISENSE L9Q PRO

Brief Introduction

Beta 2.5

The Hisense L9Q Pro Laser DLP projector has 5,500 ANSI lumens, a contrast ratio of 6,000:1, and a UHD (4K2K) resolution of 3,840 x 2,160. It is a laser projector with a 20,000-hour lamp life?that?s over 13.7 years if used for four hours a day. The built-in media player allows files to be played directly. It includes a lens shift function, which provides flexibility during installation. Thanks to the short-throw projection ratio of just 0.18:1, the projector doesn?t get in the way in the room. To project a 2-meter-wide image, the projector needs to be positioned just 36 cm away from the screen. Another notable feature is the Bluetooth functionality, which allows the projector to connect to external wireless speakers. The projector also handles 1080p and 4K video signals with ease.

Display Type
