

Hitachi LP-TW3001

HITACHI LP-TW3001

Brief Introduction

Beta 2.5

A brief introduction to the Hitachi LP-TW3001. The LCD laser projector has a WXGA 1280 x 800 resolution and a contrast of 500000:1. The manufacturer claims a laser life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The horizontal and vertical keystone correction allows the projector to be positioned very freely. With a projection ratio of just 0.3:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 60 cm away from the screen. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. It is also Full HD 1080P compatible. It was launched in 2018 and is no longer offered by the manufacturer Hitachi.
