The HongTianPao model LED-33-02 is an LCD projector with WVGA 854 x 480 resolution and a contrast of 1000:1. The lamp of the projector is specified with a lamp life of 20000 hours, which is equivalent to over 27.4 years at 2 hours per day. As HongTianPao specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. 120 Ansi lumens ensure that a picture width of 111 cm is also possible. However, if room light is available, the picture should be max. 74 cm wide. It is also Full HD 1080P compatible. The model built in 2016 is no longer offered by HongTianPao.
