

HongTianPao HD198

A brief introduction to the HongTianPao HD198. The LCD projector has an SVGA 800 x 600 resolution and a contrast of 800:1. The lamp is specified with a lamp life of 6000 hours, which is over 8.2 years if enjoyed for two hours a day. As HongTianPao specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 138 Ansi lumens ensure that a picture width of 102 cm is also possible. However, if room light is available, the picture should be max. 68 cm wide. Even 1080P video signals are no problem for the projector. The projector is no longer sold by the manufacturer. It should also be noted that there are unfortunately no more replacement lamps for the projector, neither originals nor replicas.
