

InFocus IN2124

INFOCUS IN2124

The IN2124 DLP projector from InFocus has 3200 Ansi lumens, a contrast of 4000:1 and an XGA 1024 x 768 resolution. Manufacturer InFocus specifies a service life of 3500 hours, which is over 4.8 years if enjoyed for two hours a day. The horizontal and vertical keystone correction allows the projector to be positioned very freely. 493 cm picture width, the projector will be able to illuminate well. However, if there is room light, the picture width should ideally not exceed 329 cm. Playing 1080P is also no problem for the projector. The operating noise of just 30 decibels makes the projection quiet. On the market since 2012, the model is no longer offered by the manufacturer InFocus.

Brief Introduction

Beta 2.5

Display Type

1 x 0,55" DDP2431 DDR DLP Chip
XGA 4/3 Ti Digital Light Processing Chip
