

InFocus Orbital IN0061SL

INFOCUS ORBITAL IN0061SL

A brief introduction to the InFocus Orbital IN0061SL. The standard portable DLP projector has a UHD (4K2K) 3840 x 2160 resolution and a contrast ratio of 100000:1. Manufacturer InFocus states a lamp life of 15000 hours, which is over 20.5 years with two hours of enjoyment per day. Horizontal and vertical keystone correction makes setting up the image a breeze. An image width of up to 643 cm is possible, and if the image width is smaller (we recommend max. 429 cm), even rooms with low light are no problem. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and thus all currently offered Blu-ray formats can be recognised by the projector. At just 27 decibels, the device is one of the quieter projectors.
