

InFocus ScreenPlay 5700

INFOCUS SCREENPLAY 5700

A brief introduction to the InFocus ScreenPlay 5700. The DLP projector has a WPAL 1024 x 576 resolution and a contrast of 1400:1. An image width of up to 321 cm is possible. However, the image should be smaller in room light. We recommend max. 214 cm. Playing 1080P is also no problem for the projector. On the market since 2003, the model is no longer offered by the manufacturer InFocus.
