The iZEEKER iPL310 standard portable LED LCD projector has 300 Ansi lumens, a contrast of 10000:1 and an HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 30000 hours of light life, which converts to over 20.5 years at 4 hours per day. A picture width of up to 176 cm is possible. However, the picture should be smaller in room light. We recommend max. 117 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. It is also Full HD 1080P and 4K (compressed) compatible.
