The standard portable iPL320 LED LCD has 300 Ansi-Lumen, a contrast of 10000:1 and a HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. The projector can illuminate a picture width of up to 176 cm well thanks to the 300 Ansi lumens. In room lighting, however, the picture width should ideally be less than 117 cm. As the projector optionally recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Playing 1080P is also no problem for the projector.

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display
