

JVC DLA HX1E/U

JVC DLA HX1E/U

A brief introduction to the JVC DLA HX1E/U. The DILA projector has a WXGA+ 1400 x 788 resolution and a contrast of 800:1. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. The projector can illuminate a picture width of 321 cm well. However, if there is room light, the picture width should ideally not exceed 214 cm. The model is also Full HD 1080P compatible. It was launched in 2003 and is no longer offered by the manufacturer JVC, but is still a very popular projector.
