JVC DLA-RS3000

The JVC model DLA-RS3000 is a DILA projector with UHD (4K+2K) 4096 x 2160 resolution and a contrast of 100000:1. The lamp life is up to 4500 hours, which is over 6.2 years with a daily viewing time of 2 hours. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. The projector can illuminate an image width of up to 305 cm thanks to its 2200 Ansi lumens. In room light, however, the image width should ideally be less than 203 cm. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector.
