

KIANO Go Weiß

KIANO GO WEISS

The Go White LED LCD projector from KIANO has 200 ANSI -lumen and an HDTV resolution of 1280 x 720. Thanks to the LEDs, the service life is 30,000 hours, which would equate to over 20.5 years at 4 hours a day. As the projector features horizontal and vertical keystone correction, it can be set up with plenty of space around it in the room. An image width of up to 144 cm is possible, as the projector has 200 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 96 cm wide. The model recognises AirPlay and Miracast screen mirroring signals, so it is possible to play high-resolution videos and surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Furthermore, the projector can play 1080p content without any issues.
