With the Relax, manufacturer KIANO offers a micro-portable LCD LED projector with HDTV resolution of 1280 x 720 and a contrast ratio of 800:1. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours? use per day. Horizontal and vertical keystone correction ensures that setting up the image is child?s play. The projector is capable of illuminating an image width of 103 cm. However, if there is ambient light in the room, the image width should ideally not exceed 69 cm. The model recognises DLNA, AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another notable feature is that the projector?s Bluetooth function allows it to be connected to external wireless speakers. Furthermore, the projector can play 1080p content without any issues. With an operating noise level of just 29 decibels, the projector runs quietly.
