

Klarstein HD-Q-2001

K L A R S T E I N H D - Q - 2 0 0 1

Brief Introduction

Beta 2.5

The Klarstein HD-Q-2001 model is an LCD LED projector with WXGA 1280 x 768 resolution and a contrast of 2000:1. The manufacturer Klarstein specifies a service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The projector also offers an integrated media player that can be used to play files directly. As Klarstein specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 168 Ansi lumens ensure that a picture width of 132 cm is also possible. However, if room light is available, the image should be a maximum of 88 cm wide. The projector was launched in 2014 and is no longer sold by the manufacturer.

Display Type

LCD TFT Panel
WXGA 15/9 Liquid Crystal Display

Ansi-Lumen

168 / 2800 Lumen
