

Kodak FLIK HD9

KODAK FLIK HD9

The standard portable Kodak FLIK HD9 LED LCD projector has 200 Ansi-Lumen, a contrast of 15000:1 and a HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. Thanks to the brightness of 200 Ansi lumens, a picture width of 144 cm is possible. In room light, the picture should be max. 96 cm wide. The integrated Google Assistant extends the functionality of the projector with voice assistant features such as navigation, smart home integration and music streaming. The model recognizes Chromecast, screen mirroring signals, making it possible to play videos with high resolution and surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Playback of 1080P and 4K (compressed) is also no problem for the projector.
