

KOGATA A357D

KOGATA A357D

A brief overview of the A357D: The KOGATA LED LCD projector offers 1,300 ANSI lumen, a contrast ratio of 20,000:1, and an HDTV resolution of 1920 x 1080. Thanks to its LEDs, the projector has a light source lifespan of up to 30,000 hours, which would equate to over 20.5 years at 4 hours of use per day. Horizontal and vertical keystone correction allow for great flexibility in setting up the projector. An image width of up to 321 cm is possible, as the projector has 1,300 ANSI lumens. However, if there is ambient light in the room, the image should be no wider than 214 cm. The projector supports AirPlay and Miracast screen mirroring, which allows for the direct playback of high-resolution videos and surround sound via Wi-Fi from smartphones, tablets, and PCs running Android, Windows, or iOS. In addition, Bluetooth connectivity is a useful feature for the projector, especially for wireless audio transmission. The model is also compatible with Full HD 1080p and 4K (compressed). With an operating noise level of just 28 decibels, this model is very quiet compared to others.
