Lucem LP-09D

Brief Introduction Beta 2.5	The Standard-Portabel LP-09D Laser DLP has 180 Ansi-Lumen, a contrast of 100000:1 and a HDTV 1920 x 1080 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. As Lucem specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. Due to the brightness of 180 Ansi lumens, a picture width of 136 cm is possible. In room light, the picture should be max. 91 cm wide. Playing 1080P is also no problem for the projector. The model was built by Lucem in 2016 and is no longer current.
