

LYNCAST X6 Pro

LYNCAST X6 PRO

A brief introduction to the X6 Pro: The LYNCAST Micro-Portable 3D LED LCD Projector offers 800 ANSI lumens, a contrast ratio of 10,000:1 and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, it has a lifespan of 30,000 hours, which equates to over 20.5 years at 4 hours? use per day. The horizontal and vertical keystone correction provides flexibility when setting up. An image width of up to 203 cm is possible, as the projector has 800 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 135 cm wide. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. The projector also handles 1080p and 4K (compressed) video signals as well as 3D with ease, meaning it can recognise all currently available Blu-ray formats. With an operating noise level of just 28 decibels, this model is very quiet compared to others.
