

Maxell MP-JX351E

MAXELL MP-JX351E

The Maxell MP-JX351E 3D laser LCD projector has 3500 Ansi lumens, a contrast of 2000000:1 and an XGA 1024 x 768 resolution. Due to the laser, the service life is 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. An image width of up to 515 cm is possible, if the image width is smaller (we recommend max. 343 cm), rooms with residual light are also no problem. Playing 1080P is also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. This model is no longer offered by Maxell.
