

Maypug P3

MAYPUG P3

The Maypug Model P3 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 10,000:1. Thanks to the LEDs, the service life is 30,000 hours, which equates to over 20.5 years if used for four hours a day. The horizontal and vertical keystone correction provides flexibility when setting up the projector. The projector is capable of illuminating an image width of 216 cm. However, if there is ambient light in the room, the image width should ideally not exceed 144 cm. The model recognises AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. The projector also has no problem playing 1080p and 4K (compressed) content.
