

METAvision NHT 576

Brief Introduction

Beta 2.5

The NHT 576 DLP home theater has 800 Ansi lumens, a contrast of 2500:1 and a WPAL 1024 x 576 resolution. Includes a lens shift and keystone correction function, which provides freedom during installation. 800 Ansi lumens ensure that a picture width of 287 cm is also possible. However, if room light is available, the picture should be a maximum of 191 cm wide. The projector is very quiet compared to other projectors with an operating noise of 29 decibels. The projector is no longer sold by the manufacturer. It should also be noted that there are unfortunately no more replacement lamps for the projector, neither originals nor replicas.

Display Type

1 x DLP Chip
WPAL 16/9 Ti Digital Light Processing Chip
