

miroir L710S

M I R O I R L 7 1 0 S

Brief Introduction

Beta 2.5

The miroir model L710S is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 15000:1. The lifespan of the LEDs is 160000 hours, which is over 109.6 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector can illuminate a picture width of up to 203 cm thanks to its 400 Ansi lumens. In room lighting, however, the picture width should ideally be less than 135 cm. The integrated Google Assistant extends the functionality of the projector with voice assistant features such as navigation, smart home integration and music streaming. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Playback of 1080P is also no problem for the projector.

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display
