

miroir M300A

Brief Introduction

Beta 2.5

The Game-Portabel M300A DLP projector from miroir has 400 Ansi lumens, a contrast of 400:1 and an HDTV 1280 x 720 resolution. The integrated media player allows files to be played directly. 203 cm image width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 135 cm. Thanks to the built-in 5000 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. The model built in 2017 is no longer offered by miroir.
