

miroir RK100 Roku TV

EAN/UPC:B0GR92YNYF

M I R O I R R K 1 0 0 R O K U T V

A brief introduction to the RK100 Roku TV: The Miroir LED LCD projector offers 150 ANSI lumens, a contrast ratio of 5000:1 and an HDTV resolution of 1280 x 720. Thanks to its LEDs, the projector has a light source lifespan of up to 30,000 hours, which would equate to over 20.5 years based on 4 hours? viewing per day. As the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. The brightness of 150 ANSI lumens allows for an image width of 124 cm. In room lighting conditions, the image should be no more than 83 cm wide. The model recognises AirPlay and Miracast screen mirroring signals, so it is possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Another useful feature is that the projector?s Bluetooth function allows it to be connected to external wireless speakers. The projector also has no problem playing 1080p content.
