

miroir SYNQ M189

EAN/UPC:887360000884

M I R O I R S Y N Q M 1 8 9

Brief Introduction

Beta 2.5

The miroir SYNQ M189 model is a DLP LED projector with HDTV 1280 x 720 resolution and a contrast of 300:1. The manufacturer miroir specifies a service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. 200 Ansi lumens ensure that a picture width of 144 cm is also possible. However, if room light is available, the picture should be a maximum of 96 cm wide. Thanks to the built-in 1.5h 2600mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Furthermore, the projector can play 1080P without any problems. The projector was launched in 2020 and is no longer sold by the manufacturer, but is still very popular in our projector database.
