

Nec M323X

NEC M323X

The standard portable M323X 3D DLP has 3200 Ansi lumens, a contrast of 10000:1 and an XGA 1024 x 768 resolution. Thanks to the ambient light sensor, the projector can automatically optimize the projected image. The projector also offers an integrated media player that can be used to play files directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. As the M323X is equipped with a microphone jack plug and 20W speaker, no additional audio system is required for presentations or training courses. An image width of up to 493 cm is possible as the projector has 3200 Ansi lumens. However, if room light is available, the image should be max. 329 cm wide. The model is also Full HD 1080P and 3D compatible. The model built in 2015 is no longer offered by Nec.
