

Nomvdic L500

NOMVDIC L500

Brief Introduction

Beta 2.5

A brief introduction to the L500: The Nomvdic Laser LCD projector offers 360 Ansi-Lumen and a HDTV 1920 x 1080 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. An image width of up to 193 cm is possible as the projector has 360 Ansi lumens. However, if room light is available, the image should be max. 129 cm wide. Thanks to the built-in 4800mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. The projector has Miracast Screen Mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P compatible.
