

Nomvdic X300

NOMVDIC X300

The Nomvdic X300 LED DLP projector has 700 Ansi lumens and an HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 30000 hours of light life, which converts to over 20.5 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. A picture width of up to 269 cm is possible as the projector has 700 Ansi lumens. However, if room light is available, the image should be a maximum of 179 cm wide. Thanks to the built-in 10000mAh battery, no power supply is required, which means that the projector can be set up quickly and flexibly. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Playing 1080P is also no problem for the projector.
