OPTOMA EX664UTi/M/s

A brief introduction to the Optoma EX664UTi/M/s. The whiteboard DLP projector has an XGA 1024 x 768 resolution and a contrast of 3000:1. The integrated media player can play files directly. An image width of up to 477 cm is possible. However, the picture should be smaller in room lighting. We recommend max. 318 cm. The projector offers an interactive whiteboard function for interactive training courses and presentations. Playing 1080P is also no problem for the projector. It was launched in 2011 and is no longer offered by the manufacturer Optoma, but is still a popular projector in our database.
