

Optoma UHD3000a

OPTOMA UHD3000A

The Optoma UHD3000a 3D DLP projector has 3400 Ansi lumens, a contrast of 700000:1 and a UHD (4K2K) 3840 x 2160 resolution. The lamp life is specified by the manufacturer as 10000 hours, which converts to over 13.7 years at 2 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. Thanks to the brightness of 3400 Ansi lumens, an image width of 592 cm is possible. In room light, the picture should be max. 395 cm wide. Video signals 1080P and 4K as well as 3D are also no problem for the projector, which means that all Blu-ray formats currently available can be recognized by the projector. The operating noise of just 27 decibels makes the projection quiet. The model was built by Optoma in 2021 and is no longer current.
