EAN/UPC:796435 81 266 9

OPTOMA UHZ65

The Optoma UHZ65 3D laser DLP projector has 3000 Ansi lumens, a contrast of 2000000:1 and a 4KESHIFT 2716 x 1528 4,150,048 pixel resolution. The manufacturer specifies a laser service life of 20000 hours, which converts to over 13.7 years at 4 hours of use. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. Thanks to the brightness of 3000 Ansi lumens, an image width of 556 cm is possible. In room light, the picture should be max. 371 cm wide. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, meaning that all currently available Blu-ray formats can be recognized by the projector. The projector was launched in 2017 and is no longer sold by the manufacturer.
