

Optoma ZH510T

OPTOMA ZH510T

The Optoma ZH510T laser DLP projector has 5000 Ansi lumens, a contrast of 1800:1 and an HDTV 1920 x 1080 resolution. The manufacturer Optoma specifies a service life of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. 5000 Ansi lumens ensure that a picture width of 718 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 479 cm. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. The model built in 2017 is no longer offered by Optoma.
