OPTOMA ZK608T

The Optoma ZK608T is a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast ratio of 300,000:1. The manufacturer, Optoma, specifies a lifespan of 30,000 hours? which, at four hours of use per day, amounts to over 20.5 years. The lens shift function allows for great flexibility in setting up the projector. An image width of up to 850 cm is possible, as the projector has 6,000 ANSI lumens. In rooms with ambient light, the projector performs best with a narrower image width; we would recommend a maximum of 567 cm. Furthermore, it is compatible with Full HD 1080p, 4K, and 3D, meaning the projector can support all currently available Blu-ray formats.
