

Optoma ZU500T -B -W

OPTOMA ZU500T -B -W

The Optoma ZU500T -B -W stationary 3D Laser DLP Beamer has 5000 Ansi-Lumen, a contrast of 300000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer Optoma specifies a service life of 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. With the lens shift function, the projector can be positioned very freely. The model offers a microphone jack plug and 10W speakers, so no additional audio devices are required for presentations or training courses. The projector can illuminate images up to 718 cm wide thanks to its 5000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, max. 479 cm is recommended. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. The projector can also display 1080P and 3D without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. At just 28 decibels, the device is one of the quieter projectors. The projector was launched in 2018 and is no longer sold by the manufacturer.

Brief Introduction Beta 2.5
