OPTOMA ZU500UST

A brief introduction to the ZU500UST: The Optoma 3D Laser BrilliantColor DLP projector offers 5000 Ansi-Lumen, a contrast of 100000:1 and a WUXGA 1920 x 1200 resolution. The lifespan is 20000 hours due to the laser, which is over 13.7 years with a daily viewing time of 4 hours. With a projection ratio of just 0.25:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 50 cm away from the screen. The model offers a microphone jack plug and 10W speakers, so no additional audio devices are required for presentations or training courses. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from the smartphone while it is being charged at the same time via the connection. Playing 1080P and 3D is also no problem for the projector. It was launched in 2019 and is no longer offered by the manufacturer Optoma.

 1 x 0,65" DLP Chip
