

Optoma ZU860

OPTOMA ZU860

With the ZU860, manufacturer Optoma offers a DLP laser projector with WUXGA 1920 x 1200 resolution and a contrast of 2000:1. The manufacturer Optoma specifies a service life of 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. Thanks to the brightness of 8500 Ansi lumens, a picture width of 937 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 625 cm). Even 1080P video signals and 3D are no problem for the projector, and it even has the option of projecting HD 1080P Blu-rays onto the ceiling thanks to 360° projection.
