EAN/UPC:796435 44 094 7

OPTOMA ZW300USTi

The Optoma model ZW300USTi is a DLP laser projector with WXGA 1280 x 800 resolution and a contrast of 22000:1. Due to the laser technology, the projector has a light life of up to 20000 hours, which is over 13.7 years with four hours of enjoyment per day. The projector also offers an integrated media player that can be used to play files directly. An image width of up to 575 cm is possible as the projector has 3200 Ansi lumens. However, if room light is available, the picture should be max. 383 cm wide. The projector also offers a whiteboard function that makes training and presentation rooms interactive. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Even 1080P video signals and 3D are no problem for the projector. It was launched in 2017 and is no longer offered by the manufacturer Optoma, but is still very popular in our projector database.

Brief Introduction Beta 2.5

Display Type

 1 x 0,65" DC3 DLP Chip Type S600
WXGA 16/10 Ti Digital Light Processing Chip
