The K3-1 LED LCD has 800 Ansi-Lumen, a contrast of 12000:1 and an HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. The horizontal and vertical keystone correction allows the projector to be positioned very freely. 287 cm image width, the projector will be able to illuminate well. If room light is available, however, the picture width should ideally not exceed 191 cm. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
